

# FinOps Certified Practitioner Training

For individuals who want to develop an understanding of FinOps, its practice areas and how it is applied to enhance business value from cloud spend.

FinOps is an evolving cloud financial management discipline and cultural practice that enables organizations to get maximum business value by helping engineering, finance, technology and business teams to collaborate on data-driven spending decisions. It's the way for teams to manage their cloud costs, where everyone takes ownership of their cloud usage supported by a central best-practices group.

## WHO IS IT FOR

The certification is designed for those who plan to hold a position on a FinOps team or support FinOps or cloud financial management, or if you support FinOps teams as consultants, vendors, or trainers.

- Principal Systems Engineers, Cloud Architects, Enterprise Architects
- FinOps practitioners & Managers of Cloud Operation
- Finance and Procurement Leaders & Team Members
- IT Programme and Portfolio Management Leaders
- CIOs, CTOs & Technology Leaders
- ITAM/SAM Practitioners
- Cloud Budget Owners

## WHAT YOU GET

- FinOps Foundation Accredited – Certified Practitioner Training
